ROBBED THE CASH BOX.

The Store of Geach and Geach Entered Some time Thursday Night.

Some time Thursday night some party or parties unknown entered the store of Geach and Geach and emptied the cash box. Mr. and Mrs. Geach went to Phoenix on the evening train and remained over night, returning late yesterday forenoon. Before closing the store Thursday evening, Mr. Geach did what has been his usual custom; he reserved a sufficient amount of change for the next day's business and placing it in a small steel box, locked it up in the roll top desk. He in some manner neglected to lock the box, however, having grown a little careless for he had the key in his pocket. Yesterday morning when the store was opened by Miss Murphy, she found the desk wide open and the cash box empty.

A closer inspection showed that the robbers had entered the store from the rear, having torn off the screen from the window and broken the catch lock on it. The desk had been pried open and the cash box being unlocked, it

CHAMPIONSHIP GAMES.

Phoenix High School and Tempe Normal Meet this Afternoon.

What gives promise of being the best ball game in the interscholastic series will be played on the Normal grounds this afternoon between the Normal and High school teams. The teams have met once before this season when the High school scored a victory by one tally. Since that game the Normal has won several contests and is in much better trim. At the same time the High school has been busy and both teams are in shape to put up a much better game than they did at their last meeting. The game will be called at 2:30 on the Normal grounds, and it being a holiday, there should be a large attendance. Admission 25 cents.

AN UNFORTUNATE ERROR.

Through an unfortunate typographical error in yesterday morning's paper, the menu of the dinner that will be served this evening at the dining room at the Casa Loma by the ladies of the M. E. church, appeared under the caption "A Colonial Dinner," when it should have been "Colonial Dinner." The ladies have made elaborate preparations for the occasion this evening and those who desire a good square meal will find it there.

THE ARNOLD'S OPERATIONS.

A local attorney yesterday received a letter from a California firm, making inquiries of the Arnolds. The firm wanted to know if the attorney thought it probable that a bill of something over a hundred dollars might be collected. The attorney in reply referred them to Williams and Hoffer of the Ford hotel at Phoenix, who it will be recollected had some dealings with the Arnolds subsequent to their ignominious departure from Tempe.

MINING PROPERTY LEASED.

The Bulldog Mine Located in the Goldfield District Changes Hands.

C. E. Shattuck of the firm of Shattuck & Nimo, yesterday closed a deal with the Calumet Mining company of Prescott for the purchase of a lease on the Bulldog Mining properties, located in the mining district of Goldfield, Arizona, for the term of two years. This transaction was consummated through W. B. Twitchell, who holds a large interest in the Bulldog.

It will be remembered that these holdings were worked and developed during the years of 1891 and 1892 by Gus Hirschfeld, who also erected a ten stamp mill and took out several hundreds of tons of ore, some of which assayed as high as \$50 to the ton in gold. During the time Mr. Hirschfeld worked this mine, it is estimated that he extracted something over \$70,000. The formation is quartz and is a free-milling proposition.

The Bulldog is located about one mile west of the Mammoth mine, which is now being extensively developed by O. W. Jackson, in conjunction with other parties of Denver. From 1891 to the latter part of 1905 this mine produced over a million dollars in bullion, and was at that time, controlled and operated by C. L. Hall. Under this management the main shaft was sunk for the distance of about 400 feet. Besides possessing the main ledge, which is rich in gold ore, many pockets of wire gold have also been discovered through development.

Besides the Bulldog and Mammoth mines, E. G. Carney owns some valuable claims located a short distance south of these. Tunneling has been in progress on his property for a period of about eight months. During this time, the side of a hill has been entered to the depth of 50 feet, encountering a ledge containing a 20-foot vein of copper ore. At a crosscut made
